URL? HP Server

Front end

Html landing page
"Without Addresses"

Background image is the
image of the map

Click

Pop Up Window "Tell me who you are"

Java script system window

User Interaction: Text entry

Keyboard entry
Click

User Interaction: Select Entry

Pop Up Window "Map"

Shows max. 20 yellow points with entries from
the database (random selection of entries and
random placement on the map)
the last entry shows as an orange point
Every new entry in the database updated the
map (new random selection of points and their
placement)

Click

Pop Up Window "generated HTML"

Shows the generated html with a random color
background from the spectrum

Die Java Fenster hatten eine ID - in diese konnten dann die Neuen Daten eingetragen
werden

Appears as an orange point on the map
Updates the map with new random
entries from the database

Back End

Script

API Query asks for

Alta Vista Search

List of links
